ABOUT US

A Company Built on Precision and Trust

Frontyard Services (U) Ltd is a fully registered private company delivering professional facility management, cleaning, fumigation, and compound design services across Uganda. We serve a diverse portfolio of corporate, institutional, and industrial clients — from financial institutions and manufacturing facilities to schools, hospitals, and government bodies.

What sets us apart is our commitment to thoroughness. Before any engagement, we conduct a detailed site evaluation, understand the client's operational environment, and craft a service plan tailored to their specific facility needs. Every property we touch gets a new standard of cleanliness, function, and presentation.

Our workforce is trained, uniformed, and professionally supervised. You get the same high standard whether it's a first visit or the hundredth.

04 **FULL SATISFACTION GUARANTEE**
